EXPERIENCE

INTERN AT D. E. SHAW & CO.

Jan 2026 - Present

- Designed and deployed scalable **parallel workflows** for ingesting new data formats, **cutting integration time** by 40%+
- Delivered **production-grade** frontend features in collaboration with stakeholders, **streamlining user workflows** and improving operational efficiency
- Leveraged existing caching infrastructure to serve **high-frequency queries** from **cached datasets**, reducing query latency by up to 50%

INTERN AT TRILOGY INNOVATIONS (FORMERLY CODENATION)

May 2025-July 2025

- Built a WebRTC-based *podcasting platform* supporting 5+ **concurrent AI agents**, reducing conversation latency by 35% and improving session completion rates by 20%.
- Optimized LLM interaction pipeline using **async webhooks**, reducing network traffic by 30%
- Enabled automated, context-aware *customer workflows* via **dynamic tool invocation**, reducing average task completion time from 10 minutes to 2 minutes for 70% of interactions.

INTERN AT IIRS, ISRO

May 2024-Jul 2024

- Trained a **CNN** on Sentinel-II data to reduce cloud noise in satellite imagery, achieving 87% accuracy in land classification, improving analysis reliability for 20k sq. km. of agricultural fields

PROJECTS

DIGITAL CONSULT

NEXT.JS, SUPABASE, GEMINI API

May 2025

- Developed an **AI-powered symptom analysis platform** recommending doctors across multiple specialties via conversational assessment
- Integrated **Supabase Auth, storage, and database** to support user sessions and manage **50+ simulated appointments**
- Designed structured workflows for mapping symptoms to medical domains, improving recommendation relevance

TIC-TAC-TOE APP

JAVA, FIREBASE

Dec 2024

- Developed an **android application** supporting both single-player and two-player modes,
- Integrated Firebase** for real-time multiplayer functionality, enabling **event-based updates** and tested across 5+ concurrent games.
- Implemented **background state detection** to automatically update forfeit status, added **orientation change support** to retain game state, and **used SharedPreferences** to persist player scores across sessions.

EDUCATION

BITS PILANI

BACHELOR OF ENGINEERING

July 2022 - current

Expected: 2026

Electronics and Communication

CGPA:9.24

DPS RUBY PARK

AISSCE

2020 - 2022

Percentage : 96.6

BHAVAN'S GANGABUX KANORIA VIDYAMANDIR

AISSE

2018 - 2020

Percentage: 97.2

SKILLS

Proficient:

• Java • C++ • SQL • Python • REST APIs

Familiar:

• Node.js • Socket Programming • ReactJS
• LangChain • Espresso testing • JUnit testing
• Pydantic • RAG • TensorFlow • SciKit-Learn
• Dart • Flutter • FastAPI • Playwright
• AWS Lambda • DynamoDB • SQS • S3
• CloudWatch • AWS Chalice • Pandas • React

COURSEWORKS

- Foundations of DSA
- Object-Oriented Programming (OOP)
- Operating Systems
- Communication Networks
- Computer Architecture
- Digital Design
- Microprocessors and Controllers
- Software Dev for Portable Devices
- Foundations of Data Science

CODING PLATFORMS

- **LeetCode** - 400+ Problems Solved
- **GeeksForGeeks** 60+ Problems Solved

ACHIEVEMENTS

- Recipient of Merit Scholarship for Semesters II-VIII, awarded to top 30 students of the batch
